ITALY TO BE SHOWN POWER BY FRENCH FORCES

should be ready to receive the Italian premier, he must count on the defence of Tripoli, capital of Italian Libya, should be threatened. Dibatout, head of the Italian forces in Tripoli, is expected to arrive in Tripoli at the end of the month.

A large part of the French Mediterranean fleet is scheduled to go to the aid of the Italian forces in Tripoli, and the French command of the French air, land and naval forces, however, is to be concentrated on the Mediterranean island department.

ACCORD IS BASIS

Italy started agitating for Tunisia, Corsica, Nice and Savoy Nov. 26. Yesterday France said Italy had accepted an Italian note denouncing an Italian-French accord of 1883 regarding Italian rights in Tunisia but that the accord must remain the basis for Italian-French negotiations.

Reports that the Italian leader was considering a quick military move to seize Djibouti, which he could get it without war, were published by Parisian political commentators in the newspaper L'Orléans.

VIOLENT CAMPAIGN

He cited reports from Ethiopia that the Italians there were conducting a violent anti-French campaign among the natives and also published reports that Italian troops had relieved untrained tribesmen who heretofore have maintained guard in western Ethiopia.

The French press recently has been pointing out that Djibouti is almost completely isolated from the superior Italian military strength in Africa and Ethiopia.

The French general staff, however, was believed to count on the superior French strength in the Algerian and Moroccan to show that Italy could not expect to get a port exclusive for Tripoli.

General Dulac, inspector of French colonial troops, was talked with Daladier yesterday, was said to have pointed out such tactics to the premier.

The defence of the French empire was part of a program which enabled France to triumph in the League of Nations, and the French government is determined to challenge its leadership by Paul Faure, veteran Socialist leader.

UNION ACT FORTH

Blum put forward, however, a plan for unified action in Great Britain, the United States and France in a strong "peace by right" bloc.

He abandoned his domestic program of co-operation with Communists in the face of party opposition and by that move appeared to have saved himself from a world peace movement.

Blum declared that union of the world peace movement was a step toward strong internationalism, a step toward peace. He urged that France should try to effect close relations with the United States and Russia to oppose Germany, Italy and Japan.

Charges Hurdled At Premier Daladier

ROME, Dec. 27.—Italian Fascist charges Premier Daladier with trying to prevent Great Britain from seeking a peace treaty with Italy's claims against France.

The charge was made as the French ambassador, André François-Poncet, went to the foreign office in London to discuss Italy's claims against France.

ITALIANS RETURN

One hundred Italians who had lived in France for many years returned to their native land today as the quarrel between Rome and Paris acquired a show-down.

Repatriated from southern France, the Italians were received ceremoniously by authorities with a Christmas dinner and presents.

Daladier's forthcoming trip to London and Tunisia, on which he will leave Paris next Monday, was described by the Fascist press as having both military and political character.

MAKE MORE DIFFICULT

Some writers asserted a chief aim was to make more difficult the agreement, mission to Chamberlain, when he comes to Neville Chamberlain, in another stage of his European peace mission.

Hon. Randolph Bruce Honored

In recognition of his work as Canadian minister to Japan, His Imperial Highness, the Emperor of Japan bestowed upon Hon. Randolph Bruce, left, a pair of silver Japanese chopsticks, presented to him by the Japanese legation in Ottawa.

France Accepts Italian Note Renouncing 1935 Laval-Mussolini Treaty

PARIS, Dec. 27.—France today accepted the Italian note renouncing the 1935 Laval-Mussolini territorial treaty but that the accord must stand as the only basis for negotiations between the two powers.

BURNED MATCHES FOUND IN MINE

SPRINGHILL, N.S., Dec. 27.—Finding of several burned matches, one "spool" match and cigarette stubs, the 8,000-foot level of No. 3 colliery of the Dominion Coal Company here, is worrying men and officials. Mine officials believe the matches were left there by a miner who had been working in the colliery under a permit of a fine and smoking underground is strictly prohibited because of the possibility of an explosion.

Company superintendent Earle B. Paul turned the evidence over to the provincial police. One of the men who discovered the matches was abolishing of the mine's practice of enjoying a last-minute smoke outside the boundaries of the surface plant before entering the mine.

The union also decided to ask the mine management to search under employed at least 100 men weekly. At present such examinations take place at undetermined times.

West explosion in a Springfield mine, more than 40 years ago, took 125 lives, and the toll has been added to from time to time.

SPY CHARGES LAID AGAINST ENGLISH PAIR

Spanish Insurgents Would Prove Diplomatic Espionage

HERNANDEZ, France, Dec. 27.—An official insurgent communiqué issued from Spain Monday announced 30 persons had been arrested, as a result of the discovery of espionage charges against them in the French consular office in Madrid.

The communiqué said the "British diplomatic pouch was used currently by spy rings at San Sebastian and Madrid. The pouch was found in the pouch carried by Vice-Consul Harold Reid, British vice-consul at San Sebastian.

NAMES GIVEN

It was declared the documents included the names of two British subjects: "Mr. Gidding at San Sebastian consulate and Mr. Reid, British attaché at the British agency at Burgos, insurgent capital."

The communiqué said insurgent leaders would determine the "importance" of these two men who were not identified further. Insurgent dispatches said, however, that British government officials were co-operating in investigations of these two men.

Christmas Shattered By Bursting Bombs And Staccato Gunfire

By The Canadian Press

Peace on earth—shattered by the staccato gunfire and bursting bombs on far-flung battlefronts in Spain and China.

A good will toward men—impaired by nationalistic animosities and racial hatreds prevailing in central Europe and Palestine.

Such was the picture Canadians saw across the seas as they celebrated Christmas throughout the day.

A symbol of the fact this holiday was a family one was the presence of the King and Queen, who were in the city of London, and the royal family, who were in the city of London.

Secret of Making Good Pork Dish Not Difficult

By MRS. GAYNOR MADDOX
Pigs to the right, to the left!—the Agriculture Information people say. That 7,000,000 more pigs were born last spring and summer than a year ago. They are fast now, headed for the chop with pork prices low, lower than they have been for five years.

Roast pork should be a necessary for best flavor. It is also necessary to destroy the trichinae, a parasite occasionally found in fresh pork.

If you use a meat thermometer in roasting the pork roast will be done when it reaches 180 to 185 degrees F. For cooking without a meat thermometer, cook for 30 minutes a pound in moderate oven. Long, narrow loin roasts will be done at the center more quickly than thick butts. Roast roasts regularly but not more than those will be done in them.

Use moderate temperature (350 degrees F.). Slow cooking at even heat produces best results. Place roast fat side up in roasting pan and it will do the work better. Do NOT add water. Do NOT cover.

CHOOSE CUTS CAREFULLY

Shoulder and butt roasts give most joints for the money. They are fresh, have a better flavor. Fresh hams, as it seems, cook more quickly if it is left on the bone, as well as about as long, also better if boned. Stuff these roasts in sparsely with onion, cracked the bones in roast loin and it will carry more easily.

Are you a pork roasting fanatic? Then read on.

Have the chops cut 1 1/2 inches thick and make the stuffing "pocket" by slicing through the center to the bone, so the stuffing comes

sandwiched in between two layers of chops. Use flour and brown the chops on all sides before inserting stuffing. For the stuffing, one cup of dry bread crumbs will make enough for six chops. Season to taste. Chop finely, add a little parsley, savory herbs and a little egg, salt and pepper. This stuff should be baked well-covered and slowly until the pork is thoroughly done, about 45 to 60 minutes.

COOK SAUSAGES THOROUGHLY

In pork sausage, links or patties, we have delicious good flavor, small, handy packages. The label says "cook thoroughly." The meat has been added. Cook all sausages partly covered in soup, give them the time, through cooking that pork requires.

When preparing links for broiling, broil a link with a fork to prevent bursting. For small links place in a moderate oven and broil immediately sprinkle with a "tablespoon" or so of water to prevent burning before the sausages are heated through and through. Turn them frequently and let them brown slowly. Large links are sometimes first simmered in a little water, then broiled. The sausage acquires that desirable rich, brown color.

Raising A Family

"Surely you aren't going out again tonight," said Vera's mother.

"Why not, angel? Don't you like me to have a good time?"

"You know I do. You always go. You are you to be happy. I wish you to be with pretty dresses."

"I like that I love my daughter. I like to be with you. You do what you want to do."

"Young people don't need much. I guess you are right. How you manage to raise half the night and study the way you do, you are a miracle to me. You don't have a bad word to say about a moderately well-dressed young man."

"Oh, you must have a good time. You will find it no trouble at all to make it. I wouldn't be a bit surprised if you should try it out in Paris when you find him attractive. The whole idea."

Dorothy Dix Says:

DEAR DOROTHY DIX—Will you please tell me what you think a husband owes his wife. I am going to be married and I want to know what I have a right to expect from my husband. MARY.

Answer: Well, I think that the most important thing that a wife has a right to expect from her husband is love. That's the first thing that a husband should have. It's not in words and deeds. No man should marry a woman unless he is very sure that he has an affection for her that will stand him steady through the whole of his life.

Every wife has a right to expect her husband to be a friend, companion to her. No man should marry until he knows his wife as a friend, companion to her. No man should marry until he knows his wife as a friend, companion to her.

Every wife has a right to expect her husband to be a friend, companion to her. No man should marry until he knows his wife as a friend, companion to her. No man should marry until he knows his wife as a friend, companion to her.

Painstaking Manicurists Deserve Great Big Hand

By ALICIA HART

Many of the smartest beauty salons—long since weary of their "national" complexion about rough cuticle, dry hands and split nails—are advertising so-called gentle manicures these days.

Some shops have eliminated completely the use of metal instruments. Others still use the metal nail file but the operators are instructed not to scrape the base of the nail or to file at cuticle with the file.

The clipping of corners is frowned upon. Cutters are used only to remove bits of cuticle. Orange sticks, rather than steel scrapers, are employed for removal of dead skin loosened by cuticle remover.

Long ago smart women learned the folly of having cuticle trimmed or of doing it themselves. Now they are coming around to thinking that it's just had practice to get even a very short or scrape a nail at cuticle and afterwards weakening it and causing the weakened area to split at the tip once it has grown out. They tell their manicurists to apply plenty of cuticle remover after she has removed old polish.

The remover stays on for several minutes, during which time fingers are washed and which are massaged with cream.

USE OIL MASSAGE

After manicure, the article, now softened by the remover, is carefully pushed back. Oil is then applied, into base and sides of nail. After manicure, the article, now softened by the remover, is carefully pushed back. Oil is then applied, into base and sides of nail.

AUTO DRIVERS URGED SIGNAL MAKING TURN

City Engineer Makes Report On Traffic and Safety Precautions

Motorists generally are lax about signalling when they are about to make turns, stop or start and are urged to observe this traffic rule, it was stated in a letter from City Engineer A. W. Haddow to city commissioners.

Mr. Haddow's report, result of a meeting held between himself, Chief Constable A. G. Shute, Sergeant Alex. Riddell, traffic chief, and Const. T. Egan, of the street

Dealing with safety regulations and traffic control, Mr. Haddow said that platforms at street car stops on Jasper avenue and 102, 103 and 109 streets were not recommended.

A "through street" should not be created on 104 avenue, the en-

Street railway platforms with end protection are recommended for the Jasper and 100 street intersection.

**Burglar Places
Storm Window
Back On House**

Evidently concerned about cold weather entering a house he had left an obliging burglar returned to the home of Philip Kichenlaub, 9205 108A avenue, and replaced a storm window he had removed. While at the house the first time the thief took a small amount of property,

Eichenlaub returned at 10 p.m. and found the house had been entered. Some time between that time and early morning the thief replaced the window.
